ABOUT

The [Colorado Ski & Board Report](#)© will provide a Colorado resident or visitor – quick, informative, and detailed information based on their favorite Colorado Ski Resort. Utilizing [Google Map's JavaScript API](#) to authenticate input validation, as well as the [Open Weather Map API](#), the program will provide the best route options based on forecasted weather conditions.

'[On The Snow](#)' widgets are incorporated to provide detailed resort information:

- Resort Overview
- Conditions
- Web Cams
- Elevation
- Trail Maps
- Open Terrain
- Lift Availability
- Snow Report
- Official Websites
- Lift Ticket Deals
- Lodging Options
- Recent News

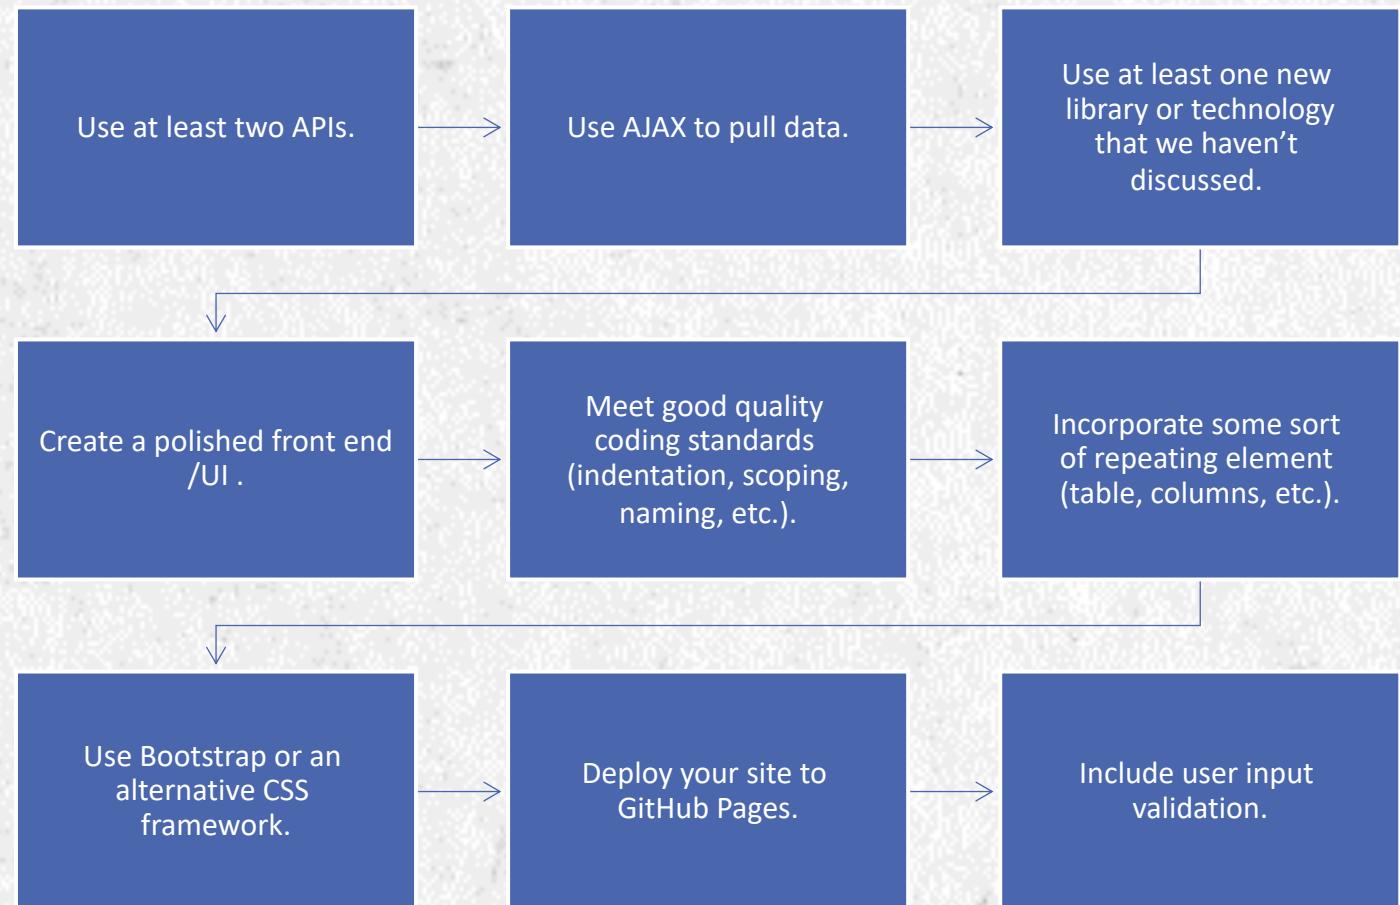

We've also implemented '[chart.js](#)', a new technology that will provide comparison values based on user preferences with radial charts and graphs.

PROJECT OBJECTIVES

Colorado Ski & Board Report

Breckenridge

Weather & Snow information is provided to OnTheSnow directly from the resorts.
We cannot be held liable for incorrect or missing information.

Lifts

9 / 34

Runs

13 / 187

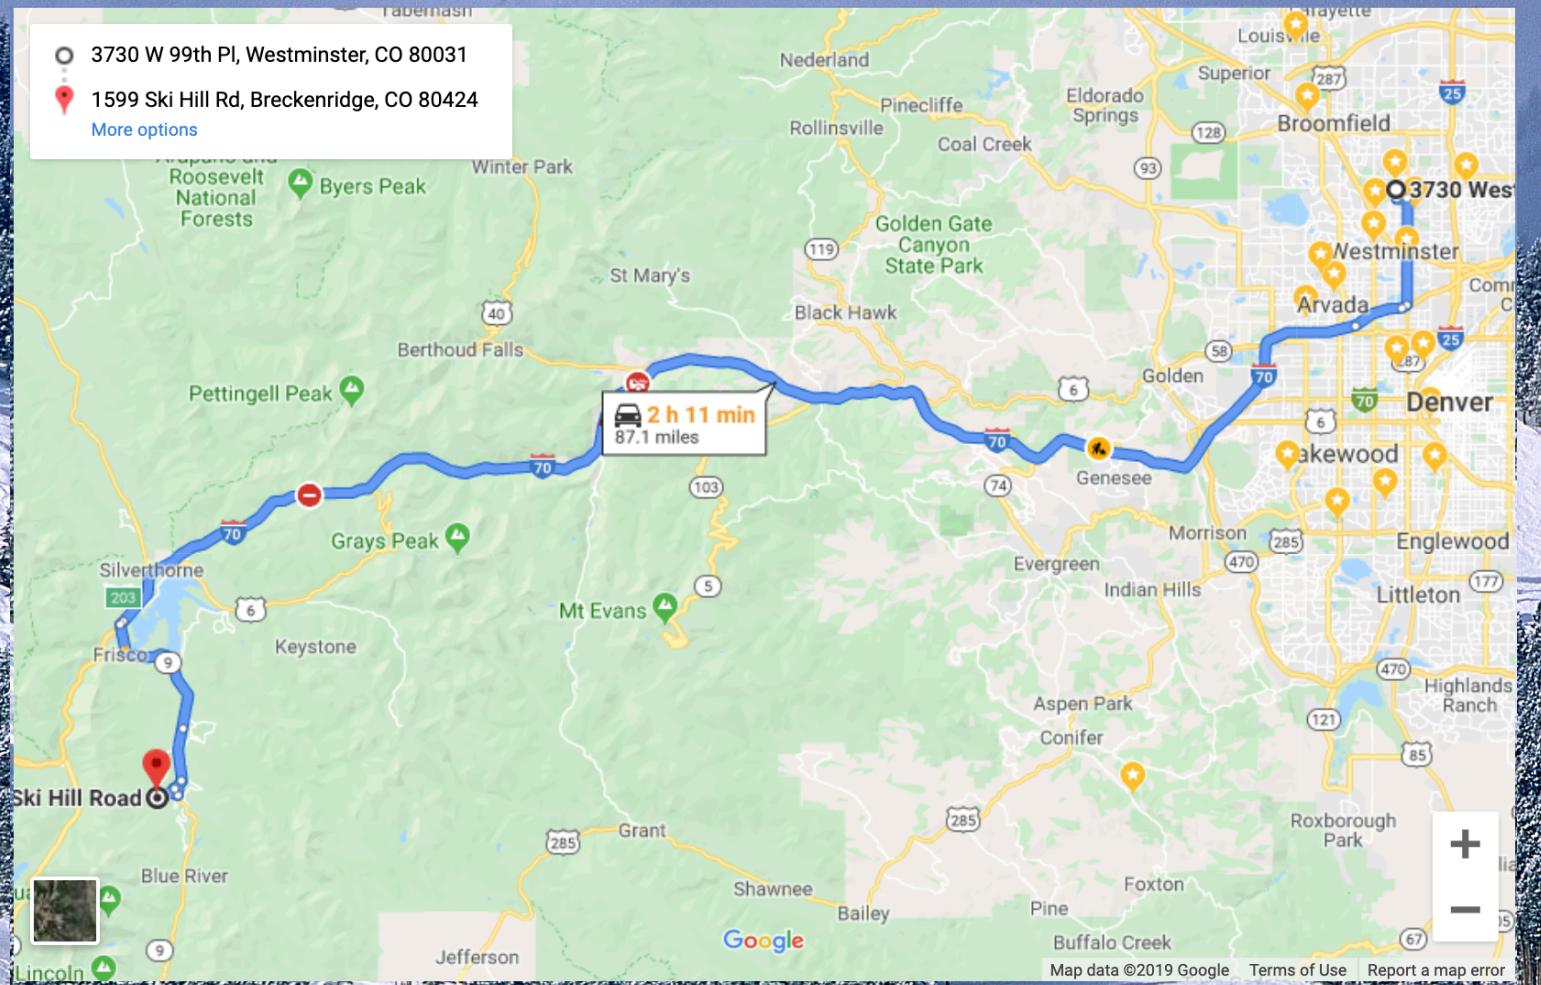

Snow Depth

18"

Snowfall

0" (11/20)

FEATURES

**Weather Conditions**

Temperature: 23.81 degrees

Wind Speed: 3.49 mph

Weather Conditions: light snow

NEW TECHNOLOGY

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut gravida eros erat. Proin a tellus sed risus lobortis sagittis eu quis est. Duis ut aliquam nisi. Suspendisse vehicula mi diam, sit amet lacinia massa sodales ac. Fusce condimentum egestas nunc a maximus.

Quisque et orci purus. Proin dolor mi, ultrices sit amet ipsum placerat, congue mattis turpis. Donec vestibulum eros eget mauris dignissim, ut ultricies dolor viverra. Phasellus efficitur ante nec sem convallis, in ornare est accumsan.
